

Gary C. Frazier Jr. 42 is an activist and organizer from Camden, NJ. In 2016, he was the East Coast Coordinator/Director for Black Men for Bernie during the Presidential Democratic Party Primary. Gary had 3 National appearances on CNN in which he warned the Democrats about their open engagement in racial divide, bigotry and voter suppression and failure to allow for an open contested primary that resulted in Senator Bernie Sanders as The Presidential Democratic Nominee would render huge repercussions to the Democratic Party in nominating Secretary Hillary Clinton. Senator Sanders would go on to endorse Clinton but the revolution that he started would not fall in line, causing an explosion of the Progressive Left and Millennials into the Green Party Which has seen its number base soar to more than 100,000 registered greens in California alone. In New Jersey as of December 2014, there were 1,302 registered Greens in New Jersey, with the highest registration numbers in [Bergen](#), [Monmouth](#), [Middlesex](#), and [Camden](#) counties. In May 2016, the Green Party of New Jersey saw a spike in registration, registering as many new voters in the past two months as it had in the past four years. By the end of 2016, there were 3,252 voters registered as Green. In the 2016 Election, Green Party City Council Candidate Gary Frazier received 6% of the vote from Camden NJ and Green Congressional Candidates Raj Mailliah and Steve Welzer each received 0.7%. As of November 2017, ten New Jersey counties now have local affiliates recognized by the state party: Monmouth, Ocean, Atlantic, Gloucester, Essex, Camden, Bergen, Union, Mercer, and Morris/Sussex/Warren. The Green Party of New Jersey's 2017 gubernatorial candidate was Rev. [Seth Kaper-Dale](#) of Highland Park. Gary has planted his feet into growing the Green Party of New Jersey's Black Caucus since the 2016 election in which he has held co-chair and serves now as the states Black Caucus Liaison, the County of Camden's Co VP as well as the Co-chair of the Green Party of NJ and Delegate to Green Party U.S. The state has also seen it's first host of black Women as a result of Gary's grassroots background hailing from a marginalized city like Camden NJ.

### **Elected officials**

In the 2017 election, Green Jessica Clayton of Brick was elected to the Brick Board of Education as a non-partisan candidate and as of today there are more than 6,700 plus registered Greens in the State of New Jersey.

Gary continues to diversify the Green Party working hand in hand with the Latinx Caucus whom both have a host of local candidates running for elected office in 2018, All whom joined the Green Party including Candidate Zellie Thomas a blm organizer currently seeking Newark's City Council @ large seat as well as Johnnie Lattner, also a Newark native and Traditional Community Schools Pioneer under the Journey for Justice Alliance headed by National Representative Jintu Brown vying for an elected school board position.

Frazier and Attorney Burkman have accused the DNC and Hillary Clinton of fraud, negligence, and violating their charter as a non-profit. Frazier contests that examining the servers will finally lead to answers in the Seth Rich murder case. Rich, a known Bernie Supporter, was working as a DNC data analyst at the time of his death. ### **From WND October 24, 2017.**

"Democrat teams with Republican to solve Seth Rich murder"

"A Bernie Sanders campaign organizer and longtime Democrat joined forces with a Republican lobbyist and attorney to file a federal lawsuit against Hillary Clinton and the Democratic National Committee for the release of the hacked DNC server they claim will reveal key information in solving the murder of DNC staffer Seth Rich. Washington D.C.-based attorney Jack Burkman filed the suit on Tuesday in D.C. Superior Court along with the East Coast director of Black Men for Bernie, Gary Frazier. At a press conference in front of DNC headquarters, Burkman asserted the DNC server will irrefutably prove the Democratic 2016 primary was rigged against Sanders, resolve whether Russia interfered in the 2016 presidential race and provide the "key" to solving the Rich murder mystery. "In this case, we will finally, after a year and a half, get these servers. That, among other pieces of evidence, is probably the single most important piece of evidence in this case," he said. "That will shed light on the entire Seth Rich mystery – we will know whether he was the leaker, we will know whether the Russians were involved, we will know whether WikiLeaks was involved.""

### **From PR News Channel November 14, 2017.**

"On Tuesday, Jack Burkman, lawyer/community activist and director of The Profile Project, amended a lawsuit filed late last month against Hillary Clinton and the Democratic National Committee, to now include Donna Brazile, the former interim DNC chair, after she dropped two bombshells in her new book Hacks: The Inside Story of the Break-ins and Breakdowns That Put Donald Trump in the White House that speak directly to what happened to Seth Rich and the role the DNC allegedly played to ensure Hillary Clinton won the primary over Bernie Sanders.

Jack Burkman, who established the independent The Profiling Project to discover the truth about the unsolved murder, says by filing a lawsuit Ms. Brazile will be forced to say what she knows—under oath. "If this were a random murder like police have maintained, why did Ms. Brazile fear for her own life," says Burkman. He says Brazile can clearly also offer critical information about what role the DNC Hillary Clinton's primary win. The lawsuit filed today in the Superior Court of the District of Columbia, will compel former DNC chair Donna Brazile to tell what she knows about the murder and explain why she feared for her own life."

In October 2017, Gary & attorney Jack Burkman filed federal suit against Hillary Clinton and the Democratic National Committee, seeking release of the hacked DNC server that they believe will prove the 2016 primary was rigged against Bernie Sanders and solve the mysterious circumstances surrounding the murder of DNC staffer Seth Rich.

A Bernie Sanders campaign organizer and Green Party Member has filed a lawsuit today accusing the Democratic National Committee (DNC) and Hillary Clinton of fraud and seeking access to their servers – a move that his lawyer believes will solve the murder of DNC staff member Seth Rich. Gary Frazier, an organizer with Black Men for Bernie and DNC contributor, claims that the DNC and Clinton committed fraud, negligence, and violated their charter as a non-profit, political organization during the 2016 presidential primary. He also accuses the DNC of being negligent with his personal and financial information and making it vulnerable to hackers. On June 14, 2016, the DNC database was compromised by Russian government hackers, security sources told the Washington Post. A Kremlin spokesman ruled out Russian involvement but day later, solo, anonymous hacker 'Guccifer 2.0' took credit for hacking the DNC database, saying it was 'very easy' on his website.

"You cannot expose us to corruption of the party and then expect us to get in line with that corruption," Gary Frazier, Philadelphia coordinator for Black Men for Bernie, yells from the stage. "We will deliver a powerful blow to the Democratic Party if they do not elect Bernie Sanders. ... We are disciplined. We are knowledgeable. We are peaceful. But we WILL BE HEARD!"

"We know they cheated us," Frazier tells me a few minutes later. He points to irregularities in New York, Nevada, and California, as well as the fact that exit polls regularly reported higher percentages for Sanders than were reflected in the actual tallies. "We know something's going on," Frazier says.

(Quick fact check: exit polls are generally terrible and tend to oversample younger voters, who overwhelmingly supported Sanders.)

Just then, a woman on stage encourages the assembled to vote for Stein instead of Clinton. "Jill Not Hill!" roars the crowd. She then calls for Bernie delegates to walk out of the convention. "We are ready for Jill Stein!"

A little after three o'clock, as the crowd begins to organize into a march, Frazier stands atop a tour bus marked "Black Men for Bernie," microphone in hand, leading a call-and-response with the audience, which is still energetic despite spending ninety minutes in the unrelenting blacktop-laden blast furnace that is Center City today.

"If we don't get it ...," he begins.

"SHUT IT DOWN!" comes the thunderous response.

Responding to Sanders' recent admission that he would most likely vote for Clinton, Frazier stated that "Bernie can do what he wants to do. [But] real change has to come."

Frazier added that the momentum the group has gained so far educating voters — Black and white — should not go to waste because Sanders doesn't win. Instead, he said, it should be used to spark more change.

"How do you turn folks away?" he said. "[And] why would we turn back to something that keeps us in the same condition?"

Frazier used the issue of mass incarceration, which overwhelmingly affects Black families, as an example of an issue that worsens, despite who is in political leadership.

"These guys that come home from the [correctional] institutions — they don't have anything and you wonder why we have high crime rates," he argued. "This is about raising the bar about issues that continue to get covered up. Our conditions don't change."

Gary C. Frazier Jr. and Rodolfo Munoz Faced Discrimination by Police and a Federal Marshal at GNC, and No One Noticed. Lookup coverage of the 2016 Green Party National Convention in Houston, TX, and you'll find an assortment of summaries from news outlets otherwise too busy with Drumpf and Clinton scandal to dive into the Convention's substance, and highlights on the Convention's more famous appearances like Dr. Cornel West, controversial Wikileaks founder Julian Assange, and, of course, presidential nominee Jill Stein. You may even find one or two Op Ed's critiquing the Convention's lack of budget and control over message but these are usually written by people who think unwealthy, uncensored democracy is just gross, apparently. Try and find news accounts covering how, not one, but two Green Party candidates faced harassment from authorities and you'll run into an odd corner of the internet resembling a virtual desert town; tumbleweeds, rolling stale information to a couple of subject houses that are somewhat related to your search. This is unacceptable. Had the following series of events happened to delegates at the DNC or Democratic candidates, it would have made a headline.
