SUBJECT/TITLE: Amendment, Credentials Committee Mission Statement, Committee Rules

TYPE OF PROPOSAL, EXPECTED APPROVAL THRESHOLD: (as per [6-2](#)): 2/3 approval

REQUESTED PROPOSAL DECISION-MAKING TIMELINE: Four weeks

BACKGROUND AND PURPOSE: The existing Mission Statement of the Credentials Committee (1-2.8) says among the duties of the Credentials Committee is “Within twelve months of adjournment of each Presidential Nominating Convention, filing a report to the National Committee, evaluating the credential process used and the lessons learned, and making recommendations to the National Committee on changes recommended for subsequent conventions. (<https://gpus.org/committees/credentials/committee-rules/#01>). This proposal is one of those recommendations of the 2019-2020 Credentials Committee, specifically to update the Mission Statement and the operating rules of the Credentials Committee.

The Mission Statement and rules currently governing the operation of the Credentials Committee were originally approved by the National Committee in January 2008, via Proposal #330 (<http://green.gpus.org/cgi-bin/vote/propdetail?pid=330>). Before then, as explained in Proposal #330, previous documents governing the conduct of the Credentials Committee included provisions sunsetting those rules.

Since the passage of Proposal #330, the National Committee approved Proposal #393 (<https://gp.org/cgi-bin/vote/propdetail?pid=393>) in January 2009, which provided for separating the Mission Statement of committees from their operating rules (called ‘Rules, Policies and Procedures’ prior to #393 and ‘Committee Rules’ with the passage of #393). Proposal #393 also provided that Mission Statements require a 2/3 vote of the National Committee for passage and a simple majority for Committee Rules.

This proposal would separate the Credentials Committee Mission Statement from its Committee Rules, and places them into two separate documents.

Second, since the passage of Proposal #393, Mission Statements have contained two sections, a Mission section and a Duties and Responsibilities section. Proposal #330 provided for a clear Duties and Responsibilities section, but the Mission Statement section only declares the existence of the Credentials Committee (and the length of time of service for the committee), but declines to actually define a Mission for the committee.

This proposal establishes a simple and clear Mission Statement for the Credentials Committee. It also makes small changes to the Duties and Responsibilities section, to

(a) reflect that some work occurs virtually and not on-site, (b) ensure that a final approved list of delegates and alternates is published, and (c) specify that Credentials Committee documentation occurs on a GPUS website, and not a separate website created by the Credentials Committee that could be external to the GPUS, as the language in Proposal #330 could be read to imply.

Third, the existing Committee Rules provide that the Credentials Committee is elected by the National Committee in April of the year before the Presidential Nominating Convention. But the Rules do not provide dates and a timeline for the nomination and the discussion process. This proposal draws upon text used for nomination and discussion to the Steering Committee, but has a less lengthy duration, and adds similar text to the process for filing vacancies. Next this proposal eliminates the restriction that a special election to fill a vacancy can only happen once every 75 days, in order to give the party a process to fill multiple vacancies if they occur over a short period of time; as well as the provision for holding a special election at the Annual National Meeting (ANM), because the National Committee no longer meets in person in a decision-making capacity at the ANM.. This proposal also reorders some existing text about eligibility to serve on the committee without changing it, to create a separate eligibility section, so that is more clear than under the current language, eligibility criteria applies to who can apply to be elected to the committee.

Fourth, this proposal would add committee Webmaster and Secretary - positions which were in fact designated by the 2019-2020 Credentials Committee in its work, even though they weren't contained in its operating rules. It also

Fifth, the proposal clarifies that vacancies occur when a committee member states they will not attend the GPUS Presidential Nominating Convention, which is a requirement for them to be eligible to serve on the committee in the first place. It also eliminates language about a committee member losing their seat based upon 'certification of their ineligibility to serve', given there is no definition for such certification.

Finally, in three places in Proposal #330, the text contained language that was only applicable to 2008 and 2011, language which is no longer needed nor relevant. This proposal would delete that language.

PROPOSAL: Part I - That the National Committee establish a Credentials Committee Mission Statement, by replacing the language from Proposal #330 with the following language (see this link <https://gpus.org/committees/credentials/amendment-credentials-committee-mission-statement-committee-rules-2021/> to see the changes in ~~strikeout~~ text from the existing language):
